

New Source Review newspaper advertisements for construction permit applications, April 19, 2007. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: April 17, April 18, or April 19, 2007. Public notices are generally published every two weeks. The previous publication of public notices was April 5, 2007.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Hommel Concrete Company with a mailing address of 1164 Raines Road, Newport, TN 37821-7620. They seek to obtain an air contaminant permit (Division identification number: 15-0071-01/60760) for a Concrete Batch Plant at the same address. This proposed operation would consist of a concrete batch plant, silos, and associated equipment used to produce concrete ready mix. A baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jabari Martin is the assigned Division person.

For the Cocke County "Newport Plain Talk"--published once on or before Thursday, April 19, 2007.

The applicant is Manchester Tank and Equipment with a mailing address of 1383 Industrial Boulevard, Crossville, TN 38555. They seek to obtain an air contaminant permit (Division identification number: 18-0002-17/60810) for modification of an Annealing Furnace located at the same address. This existing operation consists of a 12 million Btu/hr annealing furnace fired by natural gas with propane as a back-up fuel. The requested modification is for recalculation of the allowable emissions listed in the existing permit conditions for periods when the source is using propane as fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Smith is the assigned Division person.

For the Cumberland County "Crossville Chronicle"--published once on or before Thursday, April 19, 2007.

FIRST APPLICANT:

The applicant is Riverbend Construction Materials with a mailing address of 605 Cherokee Explosives Drive, Rutledge, TN 37861. They seek to obtain an air contaminant permit (Division identification number 29-0039-06/60817) to construct a Rock Crushing Operation located at Highway 92, Jefferson City, TN 37760. This

proposed operation would consist of a crusher, screen, conveyors and associated equipment used to provide gravel. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jabari Martin is the assigned Division person.

SECOND APPLICANT:

The applicant is Colgate-Palmolive Company with a mailing address of P. O. Box 1939, Morristown, TN 37816. They seek to obtain an air contaminant permit (Division identification number: 32-0238-02/60780) for construction of Two Boilers at 200 Centennial Court, Morristown, TN 37814. This proposed operation would consist of two boilers used to produce steam for the facility. Add-on equipment to the boilers will be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jabari Martin is the assigned Division person.

For the Hamblen County "Citizen-Tribune"--published once on or before Thursday, April 19, 2007.

FIRST APPLICANT:

The applicant is United DMS of Tennessee, LLC with a mailing address of 3006 Industrial Parkway East, Knoxville, TN 37921. They seek to obtain an air contaminant permit (Division identification number: 45-0082-02/60687) for construction of Drying Ovens at 950 Pine Drive, Dandridge, TN 37725. This proposed operation would consist of six pyrolysis controlled furnaces to dry sludge that come from an x-ray film washing operation. Afterburners would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jabari Martin is the assigned Division person.

SECOND APPLICANT:

The applicant is APAC Atlantic, Inc. Harrison Division with a mailing address of 1301 Spring Hill Road, Knoxville, TN 37914. They seek to obtain an air contaminant permit (Division identification number: 45-0065-04/60740) for modification of an Asphalt Plant located at 1360 Hicks Road, Jefferson City, TN 37760. This existing operation consists of crushed rock and sand stockpiles, a continuous type mixer, and associated equipment used to produce hot mix asphalt. A baghouse is used for pollution control. The requested modification is to update emission limits using current emission factors from AP-42. There would not be physical construction. Regulated air contaminants are emitted by this source. Ms. O. Jacobsen is the assigned Division person.

For the Jefferson County "Standard-Banner"--published once on or before Thursday, April 19, 2007.

The applicant is Carlex Glass Company with a mailing address of 77 Excellence Way, Vonore, TN 37885. They seek to obtain an air contaminant permit (Division identification number: 62-0100-11/60818) for construction of a Surface Coating Operation at the same address. This proposed operation would consist of equipment used in windshield coating. A fabric filter would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jabari Martin is the assigned Division person.

For the Monroe County "Advocate"--published once on or before Thursday, April 19, 2007.

The applicant is The Goodyear Tire & Rubber Company with a mailing address of P.O. Box 570, Union City, TN 38281-0570. They seek to obtain air contaminant permits for construction of eight (8) new force grinders on 3260 Goodyear Blvd, in Union City, TN, as follows:

(1) Force Grinders 60, 61, 62 and 63 (Division identification number: 66-0012-85/60561). The proposed operation would consist of four (4) force grinders used in tire manufacturing. A cyclone type dust collector would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

(2) Force Grinders 64, 65, 66 and 67 (Division identification number: 66-0012-86/60793). The proposed operation would consist of four (4) force grinders used in tire manufacturing. A cyclone type dust collector would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source.

For the Obion County "Union City Daily Messenger"--published once on or before Thursday, April 19, 2007.

The applicant is Collins & Aikman Carpet & Acoustics (TN) Inc. with a mailing address of 801 Bill Jones Drive, Springfield, TN 37172. They seek to obtain air contaminant permits for modification of the following sources at the same address as follows:

(1) Vinyl Compounding Operation (Division identification number: 74-0075-03/60843). This existing operation consists of blending equipment, and associated equipment used to blend and form vinyl compounds. A baghouse is used for pollution control. The requested modification is to increase the raw material input rate. There would be no physical construction. Regulated air contaminants emitted by this source would stay the same.

(2) Injection Molding Operation (Division identification number: 74-0075-11/60843). This existing operation consists of injection molding equipment, and associated equipment used to form polyurethane foam bonded to the back of vinyl compounds. A settling chamber is used for pollution control. The requested modification is to increase the number of injection molding stations. There would be no physical construction. Regulated air contaminants emitted by this source would stay the same.

(3) Barite Silo (Division identification number: 74-0075-16/60843). This existing operation consists of a barite silo, and associated equipment used to store barite. A baghouse is used for pollution control. The requested modification is to change the current permit conditions. There would be no physical construction. Regulated air contaminants emitted by this source would stay the same.

For the "Robertson County Times"--published once on or before Thursday, April 19, 2007.

The applicant is City of McMinnville with a mailing address of 103 Bernard Drive, McMinnville, TN 37110. They seek to obtain an air contaminant permit (Division identification number: 89-0113-01/60719 and 89-0113-02/60720) for construction of a Lime & Fly Ash Storage Silo Plant at 100 North Cedar Street, McMinnville, TN 37110. This proposed operation would consist of a Lime & Fly Ash storage silo, air compressor and top mixer with conveyors. A fabric filter would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Collins is the assigned Division person.

For the Warren County "Southern Standard"-- published once on or before Thursday, April 19, 2007.
